

Please do not pass the BPL ticket.. WE as Hams, (amatuer radio) have enough noise on the bands fro part 15 equipment..and this will wipe out ham radio. think about it.. thousands of miles of antennas ( transmission lines ) putting out rf noise. this will take out chp, police, military, emergency services, virtually all radio. This is why Australia banned it there.. Don't let the Money Waving interest of BIG BUSINESS take over for good technical expertise. This bpl is pure noise. And wha will it do?? Let the big money guys send us SPAM to our computers at a much higher rate. thanks Tom Lish N6AJR a ham since 1978, ex viet nam vet and disabeled retired..
